- The Future: ?????
Overview

Focus Areas:

- 1: Crisis Planning
- 2: Communication Plan
- 3: Keeping the Train Running
- 4: COVID-19 CME
Crisis Planning

“The ultimate measure of a man is not where he stands in moments of comfort and convenience, but where he stands at times of challenge and controversy.”

-- Martin Luther King, Jr.
Crisis Planning

Team Brainstorming Meeting

- What do we do about our live activities?
  - Cancel, postpone, or go online?

- What would be the financial impact?

- How to treat customers in this moment of crisis?
  --learners, course directors, presenters, vendors
Force Majeure – things to consider!

- Does your contract have “epidemic” listed or a catch-all like “act of God”?
- Impossible or Illegal vs impractical or non-feasible
- Full Release vs Rescheduling
- Sunday, May 10
  - What about summer and fall activities?
- Deposit

Announcement regarding COVID-19 and its impact on Stanford CME activities:

In an effort to help limit the spread of COVID-19 (also called the coronavirus), Stanford Medicine is actively monitoring the local and global health situation and is taking precautionary measures.

The health, safety, and well-being of our learners, course directors, presenters, staff, and the patients we serve is of paramount importance. In light of the increasing number of travel advisories and restrictions for citizens around the world, our office is working diligently with our course directors to make swift decisions around the status of upcoming CME conferences. We have prepared an initial Frequently Asked Questions (FAQs) website to help with answering travel, refund and other questions.

Resources for Learners

Stanford CME, its course planners, and presenters are pleased to be able to deliver you the same great content virtually. We have developed webinar resources to help you access and navigate our virtual conference.

View Resources for Learners on COVID-19

Resources for Planners & Speakers

Stanford CME appreciates your participation as a presenter in an upcoming live streamed webinar. We have developed webinar resources that includes instructions, best practices, and guidelines for presenting during a live streamed webinar.

CME on COVID-19

The news and updates on COVID-19 (novel coronavirus) are rapidly evolving each day. Stanford Medicine continues to work closely with the Centers for Disease Control and Prevention and other trusted sources to stay apprised of the latest medical information and protocols. Stanford CME will work to offer CME for health care professionals on the frontlines, covering everything we know about the coronavirus outbreak. In the meantime, the link below will take you to a list of resources on COVID-19.

Keeping the Trains Running

- RSS – 80% still active and online.
  - Seeing an increase in attendance!

- Mature practices in place already
  - Work from home, laptops for everyone, daily huddles, video conferencing, team messaging, remote workers.

- Team culture, productivity, and wellness.
  - Make it fun!
COVID-19 CME

In a crisis, clinicians don’t care about CME credit but they do care about education and learning that will help them care for their patients.
COVID-19 CME

- We failed at first
  - Too busy and reluctance to release information
  - Keep knocking on doors

- Make your unit part of the solution
  - Daily huddles, make it a priority, designate leads, streamline processes

- Converted Medicine and Pediatric Grand Rounds

- Refer Your Physicians to Other Sources

Time for Your Questions and Discussion

• Use the “hand” icon from your dashboard panel to raise your hand, wait for your name to be called and audio line unmuted to pose your question or a commentary

• Type your commentary, question, or an answer to the discussion question in the QUESTION panel
Discussion Questions

• What online/virtual platforms (vendors) are you using and would recommend?
• Is there additional support your office/team is providing to faculty and learners at this time? What is that?
• What are some of the challenges posed to your team while working away from the office?
• List some of the specific actions you and your organization have taken to ensure well-being of your team at this time?
• Is your program better prepared for other crisis in the future because of the lessons learned and practices you have employed during this time?
• How has this time affected future planning of your CPD Program?
Use the QUESTION panel to....

List some of the other major interests and needs you and your colleagues have for additional dedicated sessions at this time?

Thank you!
